98 descending

Popular tour around the "Bavarian Sea". Combined cycle and pedestrian path, ideal for pleasure cyclists and families / starting point Übersee. The Chiemsee Rundweg circles the "Bavarian Sea" for 57 kilometers, with an area of 80 square kilometers the second largest inland lake in Germany. It leads past numerous bathing spots and offers the opportunity to visit the Herreninsel with the famous Herrenchiemsee Castle and the Fraueninsel at several ship landing stages. The route passes nine villages with numerous places to stop for refreshments and is well signposted in both directions. The imposing lake and Alpine panorama accompanies cyclists on the round trip. The route leads on dirt roads, paved bike paths and side roads and can be used with standard touring bikes. The Chiemsee Rundweg is a combined cycle and pedestrian path, so special care is required. With 221 meters in altitude, the cycle route only overcomes a few slight inclines and is therefore ideal for pleasure and family cyclists. For normal to sporty cyclists and e-bikers, we recommend the faster Chiemsee cycle path.
