Starting point: Bauernhof Café in Oberbichl

This circular hiking trail takes you leisurely across the open terrain of Birnbach. Due to the higher location, you experience the sunset from a completely different perspective than in the valley. The Kaiser Mountains and the Unterberg seem a lot mightier and closer.

From November to May you can experience an incomparable and unique light show 30 minutes before and after sunset. During this time, it is physically possible for the sun to illuminate the clouds from below. Depending on the weather, the setting of the sun can be associated with an impressive play of colors, which sometimes not only shines in the sunset, but also has yellow or violet hues. This warm and "long" light has always "touched" us humans in a very special way.
